Software to Assist Companies with Benefits Compliance: Global
IBIS Advisors has launched IBIS eVisor, a suite of information management tools designed to help global organizations remain HR compliant and track and manage their employee benefit plans around the world. IBIS eVisor is a subscription service that includes Compliance Alerts and Monthly News on statutory requirements and market practice in 40 countries, country reference

manuals covering local regulations and employment conditions in over 70 countries, together with the International Employee Benefits Manager (IEB Manager), which tracks benefit plans throughout the world in a single Web-based location. With this software, subscribers can access consolidated information that is customized to their needs and receive recommendations to ensure the compliance of their HR policies globally.*
